### WAR AFFECTS TRADE

H. H. FARIES' OF MEN'S SHOP TELLS OF PRICE RISE IN SOME ARTICLES

"While the war has undoubtedly affected the price of some articles of men's wear," said H. H. Faries, proprietor of the Men's Shop, 1109 West Broadway, "I find that my own business is considerably better than it was one year ago and ever so much better than it was two years ago. I have been in business in Glendale for three years and each year I find my trade improved.

"Values of merchandise are on the whole much higher than they were before the war. Take, for instance, the single article of leather. There has been a very large increase in the price of that material on account of the great demand for leather goods in the war arena. War is a great destroyer of equipment of all kinds, rifle straps, straps of all kinds, shoes of every description are destroyed wholesale in any great field of war; and where there is a retreat these articles are thrown away and lost by the thousand. Naturally in the face of this great waste leather has gone up in price and shoes are higher in value than ever.

"At the same time it may be said of the boot and shoe trade that while the effect of the war has been to increase prices that the manufacturers are putting out shoes at as low prices as ever. The material is not, perhaps, as good, but there is better workmanship on the articles.

"It is the same in many other cases. Wherever foreign dye-stuffs have to be used the price has gone up. Yet even here a benefit may be perceived. The United States has been thrown back in this case on its own resources and its inventors have already discovered some good fast dyes. This field will undoubtedly be enlarged and before long the country will be independent of foreign manufacturers. The people are beginning to have more confidence in themselves and above all are learning that many articles formerly marked as though made abroad, were really made in the United States.

"Another result of the war has been that the people are getting to demand cheaper merchandise and are getting better articles now at a smaller price than they used to pay. Take the article of shirts, for instance. The people now demand a dollar shirt. Every day that article is becoming more popular. The result has been that the dollar shirt of today is fully equal in quality to the dollar-and-a-half shirt of a few years ago.

"Underwear is still about the same in price as it comes in natural colors. American manufacturers are giving more attention to the manufacture of their various articles of wearing apparel and are making them better in every way. I note these three points in the trade since the war broke out: (1) All articles of men's wear are being better made; (2) All articles in which dye-stuffs are used are 20 per cent higher; (3) All leather goods are dearer, or else are brought down to the original prices by the use of cheaper material.

"I find that the people of Glendale are very loyal to the stores of the city as long as they can get as good an article in Glendale as in Los Angeles and at a reasonable price. Every day I find that as I meet Los Angeles prices and give as good articles I get the Glendale trade. I have always had faith in Glendale and my past experience fully justifies that confidence."

### DEPENDABLE PRICES

Citizens of the Glendale community have learned that the Evening News fixes prices in accordance with the actual cost system and what method can be more satisfactory to printer and customer than that method.

There is a class of irregular printing on which it is difficult to give a price until the work is completed, and the only fair way to arrive at the right price on such jobs is after the work is finished when cost of stock added to cost of time will make known a price that is fair to all persons interested. An approximate price may be given to an inquiring customer which should give the necessary information providing the printing firm giving such information is a reputable business firm.

The Glendale Evening News solicits the patronage of a class of people who are desirous of getting first class printing at fair prices.

WEATHER FORECAST—Fair tonight and Thursday; northwesterly winds.

### BIG RUSH TO STUDY

GLENDALE HIGH SCHOOL ENROLLMENT SHOWS INCREASE OF 37 PER CENT

At the end of the third week of the new school year Glendale Union High school finds itself in a very much stronger position than it was a month after opening in 1914. At that time the enrollment was 375 and that was thought quite wonderful. This year three weeks after opening the enrollment is 512. This is an increase of 37 per cent.

Following are the details of the enrollment: Class B-9, 164; A-9, 37; B-10, 112; A-10, 24; 11th year, 91; 12th year, 65; graduate students, 11, and special students, 8.

Principal Moyse says: "The school is getting a large number of students who have been out of high school for a year or two years. In contact with the requirements of the workshops and other avenues of employment, those young people have found that if they desire to get on they must have more education. They have, therefore, come back to get the education necessary to fit them for better positions.

"We find that fewer students are asking permission to go to Los Angeles to study this year. This is the result of the large and varied equipment of the Glendale High school. Students are finding that they can get here everything they can hope to get in Los Angeles, while here they was thought quite wonderful. This is also very noticeable this year that people are coming to reside in Glendale in order that their children may obtain the advantage of studying at the High school, the reputation of which is now going out over the state. We have also this year a number of students who finished their course at the High school last year, but who have come back to take up studies that they were unable to complete before the close of their course.

"In short, the Glendale High school is meeting all the requirements of students who are desirous of pursuing advanced studies. They find every modern equipment in this school and they also find a clean city, without a saloon and with none of the evil and distracting influences to be found elsewhere. This does much to make Glendale a real educational center. Parents appreciate the immense value of such surroundings and our 37 per cent increase is in part to be attributed to these conditions.

"As already published, we have made some additions to our teaching staff and some changes. Following is the complete list of High school teachers for this year:

### STREET COLLAPSES IN NEW YORK

SIX KILLED AND 200 INJURED AT SEVENTH AVENUE AND TWENTY-THIRD AND TWENTY-FIFTH STREETS

(Special Service to Glendale Evening News)

NEW YORK, Sept. 22.—Six people were killed and 200 injured here today when two blocks of Seventh avenue, between Twenty-third and Twenty-fifth streets, suddenly caved in following a dynamite blast in a subway under the street. One street car with 78 passengers fell into the abyss. It crashed 38 feet and flattened into a pile of debris.

Sidewalks collapsed and every person on the street slid helplessly into the pit. Scores of persons were buried and rescued by firemen. Every ambulance in the city available was rushed to the scene. At another point on Seventh avenue a heavy brewery truck vanished through the pavement. At still another point the street began slowly to sink under the weight of the vast crowds that had gathered. The police with their clubs were compelled to drive back the speculators. Priests and ministers went among the more seriously injured and administered the last rites of their various churches.

### MILLION-DOLLAR FIRE IN LOS ANGELES

UNION WAREHOUSE COMPANY BUILDING, ALAMEDA AND NORTH MAIN ENTIRELY DESTROYED

(Special Service to Glendale Evening News)

LOS ANGELES, Sept. 22.—One million dollars' damage was caused here today by a fire which totally destroyed the Union Warehouse Company's building, occupying the entire block at Alameda and North Main streets. For a while the whole industrial district in that neighborhood was threatened. The warehouse was jointly owned by merchants and printers. It is believed the fire was caused by defective wires. The loss is divided thus—\$150,000 on the building; \$850,000 on its contents. The whole loss is nearly covered by insurance.

### REPORTS GERMANS BADLY DEFEATED

### SAY ARCHIBALD VIOLATED NEUTRALITY

WASHINGTON ADMINISTRATION DISPLEASED WITH CORRESPONDENT'S ACTIVITY FOR GERMANS

WASHINGTON, D. C., Sept. 22.—The administration is frankly displeased with the correspondence which War Correspondent Archibald had in his possession when his bag was searched by the London authorities. Publication of this correspondence will probably result in an action against Archibald. One letter especially, in which it is stated that Archibald had "done zealous work in behalf of Germany and Austria in the United States," is believed by the secret service agents here to indicate that Archibald has been guilty of violating neutrality.

### A GOOD PROSPECT

IVANHOE BRIDGE WILL LIKELY BE REALITY IN VERY NEAR FUTURE

At its meeting this morning the city council of Los Angeles agreed to rescind its decision ordering a resolution to submit a bond issue for \$15,000 for the bridge at Ivanhoe to be voted on in November. It was decided to place the appropriation in the next city budget. This will give early action on the bridge construction.

### LUTHERAN RALLY DAY

This coming Sunday throughout the entire day is "Rally day" in the Lutheran church. It begins with Sunday school at 10 o'clock and at 11 o'clock is the morning rally hour of the school and congregation, when Rev. Hoskyn of Glendale and Mr. Fred Mayer of Los Angeles one of the foremost C. E. workers will be present and speak. Prof. Laichinger will preside at the organ. A great morning is expected.

In the evening at 6:30 a Christian Endeavor will be reorganized with the assistance of a crowd of boosters from the First church of Los Angeles. Special music and addresses will be the order of the hour. At 7:30 will inaugurate the evening services when the pastor will speak on the subject, "The Value of a Fresh Start." All most cordially invited. Public always welcome.

### DEMAND LICENSES

The osteopathic feud that has been in swing in New Jersey for several years between the two factions of the profession may be said to have reached a head here today when the State Board of Medical Examiners was summoned before the Supreme Court on a rule to show cause why it should not be commanded to issue licenses to the graduates of the Pacific College of Osteopathy, nearly a hundred in number.

### SOUTHERN METHODIST U. OPENS

The Southern Methodist University completed this summer at a cost of more than half a million dollars, opened at Dallas, Texas, with about 600 students enrolled. A campaign is now underway to collect \$1,000,000 through the south as a permanent endowment for the institution.

### CENTENNIAL CONVENTION

The annual conference and centennial convention of the African Methodist Episcopal church opened at Milwaukee, Wis., today for a five day session. Bishop Benjamin F. Lee, Wilberforce, Ohio, is presiding. In the 500 delegates are many negro educators and journalists as well as churchmen.

### COLUMBIA BEGINS PRACTICE

Football practice has begun at Columbia University. After the seemingly long absence of the sport, the students were more interested in its revival than in the opening of school itself. For five years Columbia schedule will not contain the names of any of the Big Five Colleges, though West Point and Dartmouth are included in the plans for the next few years.

### TO ATTEND LAST ENCAMPMENT

Mrs. Willis Marks of Lomita avenue, a prominent W. R. C. woman left yesterday for Washington, D. C., to attend the National G. A. R. encampment which is to be held this year at the national capital. This will be the last national encampment of the members of the Grand Army of the Republic owing to the thinning of the ranks and the increasing infirmities of the veterans. This encampment will be one of the greatest and finest as well as the saddest ever held.

### ODD FELLOWS ATTENTION

Thursday evening, September 23, is the night we especially wish your attendance as we have a great big surprise to spring on that night. Oh, forget it not, forget it not.

Last Thursday night about forty members and visitors called and enjoyed a pleasant evening. Come and get acquainted.

### JITNEY DRIVERS CONVENE

A state organization of jitney bus drivers was perfected at a convention opening at at Youngstown, Ohio.

### GARDEN LOVERS MEET

HORTICULTURAL SOCIETY IS TO REORGANIZE AND BEGIN WORK ANEW

Apparently the work that was done before the summer vacation to organize a horticultural society in Glendale will have to be done all over again. It will be remembered that the organizers of the society met several times and held several consultations regarding methods and work; but nothing was done further than to appoint officials. Principal Moyse was appointed president; Prof. Houdyshel, vice-president and Mrs. Nanno Woods, secretary.

Meetings were held from time to time and finally a committee was appointed consisting of Mr. Morris Caruthers, Mrs. Gilman Taylor and Mrs. Nanno Woods, to draw a constitution and by-laws. By that time the vacation time had arrived and various members of the society began to leave town. With crippled forces it was found impossible to carry on the work of the society which accordingly adjourned to meet after the first of September.

Since the resumption of active work for the winter by the schools and other institutions it has been found that various alterations in the plans of officials of the horticultural society may necessitate sundry changes in the management of the society. As far as can be ascertained nothing has been done to draw up a constitution and by-laws and that work must be done at once in order that the society may go on with its work.

Arrangements are now being made to hold a meeting of the society in order that opportunity may be given to officials to state their position and plans of officials of the horticultural society may necessitate sundry changes in the management of the society. As far as can be ascertained nothing has been done to draw up a constitution and by-laws and that work must be done at once in order that the society may go on with its work.

Notice will be given shortly as to the time and place of the coming meeting of the Horticultural society and it is hoped that all lovers of flowers will attend and infuse into the society the spirit necessary for its existence.

### GOOD TEMPLARS' SOCIAL

Members of Glendale Good Templar lodge gave a social Friday evening at their headquarters in the I. O. O. F. hall, Third and Isabel.

Mrs. Annie Robbins had charge of the program which consisted of mandolin solos by Mr. and Mrs. Edward Lawrence, a vocal solo by Mr. Philip Laichinger, Mrs. Coral Harrison Sloan gave two very excellent readings and Dorothy Bonnell was seen in Grecian poses and Lillian Mason favored the company with vocal and piano music.

Mr. and Mrs. Will Moore of Pasadena led the grand march. Games in charge of J. Holgate of Pasadena were enjoyed during the evening. Fruitade and wafers refreshed the merry crowd.

### ENDEAVORERS ENTERTAINED

The Christian Endeavor Society of the Presbyterian church was entertained by the executive committee of the society in the parlors of the church last night, at a supper.

Following the supper, the regular business meeting of the society was held when much work was planned for the coming winter. A short program consisting of a piano duet by Misses Alice Grey Beach and Evelyn Kent, a clarinet solo by Ralph Carmichael, an interesting talk by Miss Scott, Presbyterian secretary for the young people and a short address by Rev. Edmonds was very much enjoyed by the large assemblage of Endeavorers.

### MISSIONARY MEETING

The Woman's Home Missionary Society of the First Methodist church met at the home of Mrs. A. M. Brooks, 211 South Jackson street Tuesday afternoon. After the regular business session, a program was given by members of the Queen Esther Circle under the direction of Mrs. C. D. Lusby. The following young women took part:

Jennie Lacey, piano solo.  
Leone Brice, reading.  
Ila Brooks, reading.  
Irma Johnson and Helen Reynolds, vocal duet.  
Margaret Lusby, reading.  
Doris Ingledue, reading.  
Marian Addison, vocal solo.  
The hostess assisted by her daughters served refreshments.

## BULGARIA'S CURIOUS ACTION

Bulgaria is what the French call the "mauvais enfant" of Europe. Conscious that every action on its part was being watched and canvassed eagerly by both the Anglo-French allies and the central powers. Bulgaria has been "acting up" in a most tantalizing manner. Each one of the powers has kept envoys at the Bulgarian court, and Sofia, the capital, has been the scene of more intrigue than even Berlin in the time of Bismarck.

Bulgaria stands in the direct road to Constantinople and were she to open her doors to the allies of either side that side would have a much improved chance of winning the war. Under these circumstances Bulgaria has been giving herself airs and has been as coquettish as a fashionable beauty with a score of lovers. The latest exploit of the country has been to order the mobilization of her army, "to maintain armed neutrality" whatever that may mean in the mouth of Bulgaria.

It is reported that the powers that be in Bulgaria are inclined toward the central powers; but that the people of the country favor the Anglo-French allies. In that case there is likely to be trouble of some kind. It is even prophesied that there will be civil war, though that is not likely. Indeed Bulgaria is in a most difficult position and has been hesitating so long over it that she has almost alienated both sides.

Whatever may be the outcome of her present attitude, it is safe to predict that if the Anglo-French allies conquer in the great fight Bulgaria will be so far shorn of what power she possesses at the present moment that she will be but a shadow of her former self. Her conduct in ordering the mobilization of the Macedonian forces at a time when the fate of Macedonia is being seriously considered by the powers is a kind of defiance that argues some other and more insistent power behind Bulgaria.

It is certain that the mobilization of the Bulgarian army will be followed by the mobilization of Roumania and Greece, who cannot afford to remain neutral any longer when the fighting is to be pressed along their borders. Already German troops are thundering at the gates of Belgrade in Serbia and a great drive is planned through that country with a view to opening up another pathway to Constantinople.

It is becoming more and more manifest that Germany, having made the plunge in the case of Belgium, will not hesitate to wipe out of existence any other small power that stands in her path. It is true that Bulgaria should be able to put up a better fight than Belgium did, in quantity if not in quality, if attacked; but as far as appearances go it is likely that Bulgaria's ruler is anxious to be on the side of Germany and Austria. In that case the world will see a further section of Europe plunged into the war.

Germany and Austria know that if the allies succeed in forcing their way to Constantinople their cause is lost. The opening of the Bosphorus and the Black sea will give Russia the immediate aid she needs in the way of armament and ammunition, while Russia will be able to pour out her vast stores of wheat to relieve the markets of the world.

Just at present the war is at a crucial point. Germany, held fast by the British fleet; her submarine campaign checkmated, has only her successes in Polish Russia to show for a whole year's strenuous fighting. Hence her feverish eagerness to smash her way to the relief of Constantinople, and hence the significance of any overt act on the part of Bulgaria.

## PLIGHT OF ARMENIANS IN TURKEY

While all the world of Europe is at war elsewhere, the unspeakable Turk is again pursuing his time-cursed amusement of slaughtering the miserable Armenians. The worst that has ever been told of what Russia did to the Jews and Nihilists does not compare in severity and cruelty with the barbarous treatment the poor Armenians are receiving at the hands of the myrmidons of the Sultan.

In a country like Armenia, where the women cut crosses on their foreheads to insure their being killed when they fall into the hands of their enemies lest a worse thing than death befall them, one can imagine that the wretched people live in constant fear and danger. Just now the Turks have conscripted every man between the ages of 20 and 45 and sent them to the front; they have also taken every man between the ages of 45 and 60 and set them to work for the military transport. Even those who have paid the military exemption tax have been imprisoned and slaughtered, as it was too much trouble to keep them alive. The rest of the people—old men and women and little children—have been banished to the desert of Alep, a remote region.

When it is reflected that it takes sometimes as long as two months to make the journey to Alep on foot, it can be seen that the Turks do not intend to permit many of the unfortunate Armenians to escape thither. This process of thinning out has been going on ever since the war broke out. Not a house in the whole country has been left without a search, and any pretext has been sufficient to allege a breach of law and a consequent massacre of the inhabitants of the district.

The villages around Van and Bitlis have been pillaged and their inhabitants put to the sword. At the beginning of this month all the inhabitants of Bala-Hissar were put to the sword, with the exception of a few young children. The total number of the Armenians is only 1,500,000. They are one of the most ancient of the Christian communities, having been converted in the first century. Through good report and ill report; through life and death, they have clung to their faith, and now a Christian nation is helping their enemies, the Turks, to exterminate them. It is stated on authority that unless some powerful influence like that of the United States be exerted on their behalf, in a month or two there will be but a mere handful of them left.

## NEW NATIONS TO ARISE

Rev. John Troy Tells of Earthly Kingdoms to be Destroyed at the Coming

Rev. J. H. Troy

Lecturing last night on "The Nations of the Earth in the Light of Prophecy." The Rev. John Troy gave a graphic interpretation of the various biblical statements regarding the final conflict of nations preceding the coming of Christ. There was a large and attentive audience. The lecturer said in part:

"The courses of both Israel and the Gentile nations are clearly indicated in divine prophecy. According to scripture seven great dominions are to be organized out of the deep sea of unorganized humanity. The connection between these empires and Israel must be noted. The Egyptian held the seed of Abraham in bondage 400 years. The Assyrian led the ten tribes captive. The Babylonian destroyed Jerusalem and led Judah captive. By prophetic vision Daniel saw the Babylonian, Medo-Persian, Grecian and Roman ascendancies run their course and issuing in ten kingdoms, three of whom are to be rooted up by a little horn this notable power federating the ten kingdoms in what appears to be a revival of the Roman Empire united with the Roman church. Read carefully II Kings, 17:1-8; Daniel 2 and 7. What was to Nebuchadnezzar a beautiful image was to Daniel the prophet a series of beasts coming up out of the deep sea of unorganized humanity. Daniel 7.

Revelation 13 presents a nearer view of conditions toward the end of the course of the Gentile nations. The beast coming up out of the sea having ten horns and seven heads suggests the last universal empire under Antichrist. The seven heads indicate the consummation of the seven universal empires and the ten horns the federated states, the ten toes of Nebuchadnezzar's image and then ten horns of Daniel's last beast. In the beast coming up out of the earth we have the ecclesiastical side of the final world kingdom of the Devil. This beast will have horns like a lamb but will speak in the deep tones of the dragon, a sort of wolf in sheep's clothing. Rev. 13:11-18.

Rev. 17 presents a still nearer view giving remarkable details of the final universal dominion which shall partake of all previous universal kingdoms, the devil's last attempt before the revelation of the King of Kings in judgment upon the nations of the earth.

Babylon is seen seated upon a scarlet-colored beast, full of blasphemy, having seven heads and ten horns. There again the seven heads stand for the consummation of the seven universal dominions and the ten horns the ten kingdoms of the end which are to be federated under Antichrist.

Mountains signify nations. It is to be remembered that the heads signify nations. So we read:

"Here is the mind that hath wisdom. The seven heads are seven mountains on which the woman (Babylon) sitteth; and they are seven kingdoms (kings); the five are fallen (Egypt Assyria Babylon, Medo-Persia, Greece), the one is (Roman, the time of writing) the other is not yet come (revived Roman empire under Antichrist).

"The devil himself will finally crowd to earth and gather all mankind to his support in a final struggle which shall incorporate all the elements of the preceding seven empires.

"And the beast that was, and is not, is himself also an eighth, and is of the seven; and he goeth into perdition." Rev. 17:11.

The final universal dominion shall be compounded of the ten kingdoms brought under the control of the beast.

"And the ten horns that thou sawest are ten kings, who have received no kingdom as yet; but they receive authority as kings, with the beast for one hour. These have one mind, and they give their power and authority unto the beast."—Verses 12, 13.

It is this final organization of humanity out of the deep sea of unorganized humanity that will be destroyed by the brightness of the coming of the Kings of Kings.

"These shall war against the Lamb, and the Lamb shall overcome that are with him called and chosen and faithful."—Verse 14.

Simple, indeed, is this outline. Certain, indeed, is the doom of the nations of the earth. Portentous, indeed, are the signs of the times.

"I am looking at the brightness

(See, it shineth from afar!)

Of the clear and joyous beaming

Of the 'Bright and Morning Star.'

Through the dark grey mist of morning

Do I see its glorious light.

Then away with every shadow

Of this sad and weary night!"

The lecture this evening, commencing promptly at 8 o'clock, will be entitled "Is the Kaiser Antichrist?" All denominations invited. First Baptist church, Louise and Third.

## CARS ON FIRE

Last night about 6 o'clock a three-car Pacific Electric train Los Angeles bound, in charge of Conductor C. E. Smith of 419 North Central avenue, Glendale, was set on fire by a broken trolley. Conductor Smith succeeded in uncoupling the two rear cars from the burning car, suffering injury to his eyes from the smoke and flames. A Los Angeles fire department engine was called out and extinguished the fire after considerable damage to the front car.

If you like California and have money to invest, why not own part of the state—even if but a lot or a few acres?

There once was a political organization known as Tammany. Has it sunk for the third and last time?

It is to be hoped that Carranza will not duplicate the Nero-fiddling-while-Rome-was-burning act.

The Bible is still the "best seller."  
During the past year the American  
Bible society sold 6,370,465 copies.

Wild life is decreasing in this coun-

been much wanton slaughter, in the  
name of sport. And none deplores  
this more than the real sportsman.

Doubtless the worm turns some-

in East Acacia street.

Miss Helene Morgan, daughter of  
the host and hostess, and who is an

ried at the home of the bride, on  
West Park avenue. Only immediate  
relatives and a few of the most in-  
timate friends of the bride and groom  
witnessed the nuptials. Rev. R. T.

## FARMER'S INSTITUTES

In number held and in attendance,  
farmers' institutes are steadily in-  
creasing in popularity, according to a  
report just published by the Depart-  
ment of Agriculture. During the  
fiscal year ending June 30, 1914, the  
report states, 25,238 of these insti-  
tutes were held throughout the coun-  
try, with a total attendance of  
3,656,381. This is an increase in at-  
tendance of 26 per cent over that of  
any year previous year. On the other  
hand, the expense of conducting the  
work was nearly \$63,000 less than  
last year, the total cost for the fiscal  
year ending June 30, 1914, being  
\$447,897.51. In addition to the or-  
dinary meetings, there were movable  
schools in 13 states which had a  
registered attendance of 112,498 dif-  
ferent people.

## FOR PRESIDENTIAL RACE

Illinois Republicans gathered in  
Springfield, Ill., for their annual state  
fair field day. Presidential politics  
was the headline and Congressman  
James R. Mann, minority leader of  
the house, and United States Senator  
Lawrence Y. Sherman, both presi-  
dential candidates were scheduled to  
show their paces. Republican day at  
the state fair is always the big party  
event of the year and it took on  
added importance from the trial heat  
of the presidential race.

Back of the avowed candidates was  
the sinister shadow of Theodore  
Roosevelt. Veiled hints from Pro-  
gressive leaders that T. R. might en-  
ter the Republican primary in Illi-  
nois, sent shivers down the spines of  
the Sherman and Mann adherents.

The Democrats will have their state  
field day tomorrow, but their exhibi-  
tion will be limited to state candi-  
dates. If President Wilson is a candi-  
date, he will have no Democratic  
opposition in Illinois.

In addition to presidential politics  
Republicans here were debating the  
national committee fight, William  
Hale Thomson, Chicago's Cowboy  
Mayor, is a candidate. So is former  
national committeeman Roy O. West  
also of Chicago. West has the back-  
ing of the Deeneen machine and in  
spite of recent jolts, it is still some  
machine.

With Chicago divided, the down  
state Republicans hold the balance of  
the power.

Senator Sherman was today's chief  
speaker. Aspirants for gubernatorial  
honors were plenty. Four of them  
were slated for addresses. They are  
State Treasurer Andrew Russell, Jack-  
sonville; Frank O. Lowden, Dixon;  
F. L. Smith, Dwight; and E. J. Mur-  
phy, Joliet.

And Uncle Joe Cannon, not the  
power that he once was, but still  
some pumpkins in Illinois politics,  
was on the program.

## POTATO QUARANTINE

A study which the Department of  
Agriculture has been making for  
some time now of the potato disease  
known as powdery scab, has resulted  
in the discovery that soil and climatic  
conditions limit the power of this  
disease to develop. In consequence  
the quarantine regulations, which  
formerly restricted interstate ship-  
ments of potatoes from Maine and  
two infected counties in New York,  
were removed September 1. These  
restrictions were a precautionary  
measure designed to protect potato  
growers in other states who obtained  
a large amount of their seed from the  
infected district. Recent investiga-  
tions, however, indicate that the  
danger of infection in the central and  
southern states is not great. In the  
majority of cases the disease has  
failed to develop in these regions,  
even when it is known that infected  
seed has been planted.

### LITTLELANDS AND SUNLAND

In order to accommodate the voters of Glorietta Heights precinct who have not registered, Mrs. Baetz registrar of voters, who resides at Mrs. Morgan's ranch just off Michigan avenue, near the termination of Sunset boulevard, announces that she will be at home on Saturday afternoon and will also be present at the town meetings for the same purpose, until Oct. 26. All who have not registered, please take notice and govern yourselves accordingly.

Seldom has the town meeting had such a program of interesting and practical lectures as was offered last Friday night.

After a few remarks and making a few announcements which will be found in another column, the moderator turned the meeting over to Senator Brown of the Rural Credits Commission.

Senator Brown gave a terse graphic address which for clearness of expression and for source of information could scarcely be surpassed. He told the audience of the struggle to get rural credits through the assembly and which has recently been signed by the governor, which is now a law but it is found that the state cannot lawfully make loans therefore is one of the important measures coming up for decision at the polls on October 26.

Also another is the Land Colonization Act; and yet another, The State Market Act.

The first two are of supreme importance to people of limited means who yet wish to own their own homes. To make these clear Senator Brown used this illustration: Suppose a man

wishes to purchase a tract of land for a home and has not the money. If these measures pass, the state would be in a position to loan the purchase price and charge, say 7 per cent or whatever rate is decided upon. At the end of thirty years or whatever the time may be the man becomes sole owner of the land without further payments. The Rural Credits will give the state the right to lend money, the Land Colonization Act will give the state the right to go into the real estate business. Mr. Brown emphasized again these three measures: Rural Credits, Land Colonization Act and State Market Act.

Should the State Market Act pass, a state market commission will be appointed, who will make rules and regulations helpful in the distribution of products. Not more production at present seems necessary but will keep the producer informed as to the best places to send his products. If there is a glut in the market somewhere and a dearth elsewhere there will be bulletins issued notifying the ranches, dealers and others with advice as to quantity to ship and manner of shipment and where not to ship and other information pertinent to the subject. It is believed this commission will be able to help the ranchers save the vast quantities of fruits and vegetables that go to waste every year.

Mr. C. L. Shufeldt of the garden commission for the schools of Los Angeles was next introduced. He told of the garden work being carried on among the children of Los Angeles. The great pride the children take in their back-yard gardens that are being cultivated all over the

city. The enumeration; the prizes that are being given for their encouragement. Mr. Schufeldt illustrated his remarks by many beautiful colored stereopticon views taken of these same gardens showing many of the little gardeners at work. He thinks these home gardens as a great factor in the education of the boys and girls, teaching them industry and thrift; including a love for the beautiful and useful, while they are incidentally gaining a knowledge of vegetable and flower gardening that will be of value to them all their lives and which will materially aid in reducing the high cost of living.

Mr. Schufeldt especially advised the cultivation of two vegetables which he thought would add to the family menu one was the kohlrabi which when properly cooked and creamed, very much resembles new peas, and the other was the Lucellus chard, the stems of which when creamed taste like asparagus.

Owing to the lateness of the hour, Mr. G. H. Maxwell refused to give his lecture saying it would keep till another time and very generously offering to give place at any time to other lecturers who can find it convenient to come to Little lands only occasionally.

It was announced that the garden committee would meet Monday afternoon at 1 o'clock.

The Board of Trade had a letter last week from some one connected with the United States sub-treasury in San Francisco requesting a copy of the program of garden planting issued by Hartranft and any other literature pertaining to Littlelands.

### ALLEGED RABBIT KILLER

Fifteen dead rabbits, discovered through the activity of Patrolman Laurence were evidence against a dog belonging to Mrs. W. H. Albright, 257 East Fifth street in a complaint before Judge Whomes, Monday. The rabbits belonged to M. J. Wright, 239 East Fifth street. The evidence pointing to the dog as the culprit was the fact that he had been seen several times trying to get into the rabbitry and also the fact that the holes where the rabbits were buried bore marks of the scraping of his paws. The accused animal was brought to police headquarters and tied up there pending examination into the case. Judge Whomes intends to give the owner of the dog a chance to repair the mischief done and if no appearance is entered for this purpose the offending animal will receive an official execution.

### YEAR AGO TODAY

China has replied to Germany's protest against the landing of Japanese troops in China, saying she is unable to defend her neutrality.

Heavy fighting is reported in France, the Germans attacking vigorously southeast of Verdun and claiming successes. The French war office reports an advance of eleven miles in an effort to envelope General von Kluck's army on the right of the German line.

Latest reports indicate 1133 British seamen were lost and 1067 saved by the sinking of three cruisers in the North Sea.

Austrian cruisers Maria Theresa and Admiral Stann were badly damaged in a fight with the French fleet in the Adriatic.
